Summary

With over 6 years of experience as a Senior Front-End Architect, I possess a deep understanding of modern web development principles and a relentless passion for crafting exceptional user journeys. My expertise lies in leveraging cutting-edge frameworks like JavaScript, TypeScript, React.js, React Native, and Next.js to translate complex business requirements into pixel-perfect, high-performance web applications that captivate users across platforms. I'm not just focused on technical prowess; my true strength lies in delivering clean, maintainable code that prioritizes long-term maintainability and fosters a collaborative development environment where knowledge sharing and mentorship are paramount. My dedication extends beyond code, as I possess a keen eye for user experience (UI/UX) design. My passion lies in creating intuitive and responsive interfaces that are not only visually stunning but also deliver a seamless user experience, ensuring users are captivated and engaged throughout their journey.

Experience

Software Engineer

PT Udara Maya Solusindo

Aug 2023 - Present (9 months)

- Developed an AI/ML with Python
- Developed code for mobile, desktop, and web-based applications.
- Maintained website analysis spreadsheet by monitoring activity.
